WORK EXPERIENCE

DeepWeave

May. 2025 – Present

Co-Founder and CEO

Richmond, VA

- Engineered Plannr, a fully functional AI-powered Meal Planning application that utilizes professional grade LLM models and Stable Diffusion Loras to produce both unique cooking recipes and dish images tailored to the users preferences, distastes, and budget
- Developed core website for DeepWeave, in order to display blog posts and product descriptions for the company

Haymarket Media

May. 2025 – Present

Data Engineering Intern

New York, NY

- Leveraged prompt engineering with Google's Vertex AI to normalize the varied headers throughout the companies large database
- Lead the product team for designing and prototyping an AI chatbot within legal AI guidelines for a healthcare practitioner course catalog provided by the company. Communicated regularly with design, content, marketing, and legal teams to bring the product to fruition

Nomic AI

Jun. 2023 – Aug. 2023

Junior Software Engineer

New York, NY

- Developed UI for GPT4All's (70k+ starred github open-source LLM repo) LLM Client, to accurately and proficiently display the results of API calls and AI requests to models, including incorporation of markdown for text and formatting for various programming languages
- Worked closely with Web Dev Professionals in effectively converting website design to applicable code for website revamp and transfer from React.JS to Next.JS

Nomic AI

Jun. 2022 – Nov. 2022

Software Engineering Intern

New York, NY

- Constructed an API to scrape 50+ social media and news platforms to gather data for various firm-based clients
- Built a Dashboard to show the biases of the Pro-Russian and Pro-Western News Sources on the Russo-Ukrainian Conflict
- Utilized Docker and AWS to develop and deploy an application of gathered datastreams onto the visual Atlas program

EDUCATION

University of Virginia

May. 2027

BS Computer Science

Charlottesville, VA

- Developer of Official Club Website for MLClub@UVA. Implemented firebase and node.js to build a website to display MLClub's AI lectures, seminars, and other key club information
- Participated in weekly Vedic yoga sessions and Gita readings to stay connected with culture and religion away from home
- Lead teams in various Capture-The-Flag competitions with the cybersecurity club at UVA through CTFTime listings
